

NEWS LETTER

SCAM PREVENTION

As we wrap up the year, it's a great time to review your personal and financial security. Make sure your account information is up to date, monitor statements for unusual activity, and set up alerts for large or unexpected transactions. Updating passwords and enabling two-factor authentication can add an extra layer of protection, especially for online accounts. By taking a few simple steps now, you can start the new year with greater peace of mind and security.

DID YOU KNOW?

The United States Mint (Mint) hosted a ceremonial strike event on November 12, 2025 at its Philadelphia facility where United States Treasurer Brandon Beach struck the final, circulating one-cent coin (penny). The event marks the official end of the penny's 232-year production run as a circulating coin.
