## SCAM PREVENTION

Scammers often target people looking to start or grow a business with promises of quick success and easy money. Be cautious of high-pressure sales tactics, large upfront fees, and guarantees of income or results. Before signing up for any coaching program, research the company and read independent reviews. A legitimate business coach will be transparent and won't pressure you into making a quick decision. If it sounds too good to be true, it probably is.

## DID YOU KNOW?

There once was a money shortage problem in the U.S. Under English rule, the colonies were banned from making their own currency and instead were forced to either use their existing coins or creatively barter with each other, according to the Federal Reserve Bank of Philadelphia. In 1652, Massachusetts started making its own coins against the British directive. In an attempt to mitigate any punishment they would receive if the British ever found out, they dated all the coins with the year "1652" even though they continued to produce them for many years.

## ADOPT-A-HIGHWAY KEEPING OUR COMMUNITY CLEAN

Each year, our team proudly takes part in the Adopt-A-Highway program by cleaning our designated stretch of roadside right here in our community. Since adopting our section in 2022, what started as a simple way to give back has become a tradition we look forward to year after year.

Picking up litter is a small effort that has a big impact keeping our highways clean and welcoming. It's a great opportunity for our staff to work together outside the office while showing pride in the community we serve every day.

We're grateful to everyone who volunteers their time and energy to help make our roadsides cleaner, safer, and more beautiful for residents and visitors alike. Thank you to our team for continuing this important tradition and helping keep our community looking its best!
